

Stripe Hog® SK3000

6 gpm (22.7 lpm)

SPECIFICATIONS

Operating Pressure:	40,000 psi (2750 bar)
Flow Rate:	6 gpm (22.7 lpm)
Fresh Water Capacity:	1000 gallons (3785 liters)
Debris Recovery Tank Capacity:	1200 gallons (4542 liters)

APPLICATIONS

Road Marking Removal	Runway Rubber & Marking Removal
Road Retexturing	Paint Cleaning & Rejuvenation
Surface Preparation	Curing Compound Removal
Airport Apron Cleaning	Car Park Marking Removal

STRIPE HOG ADVANTAGES

Advantages of the Stripe Hog SK3000 for the Highway Industry:

- ▶ Fast removal rates for the removal of thermoplastic, cold plastic, two component, epoxy, tape and waterborne paint. Removes thermoplastic at 1,406 linear meters per hour.
- ▶ John Deere tractor mounted head does not require a CDL commercial driver's license and offers unmatched maneuverability.
- ▶ Cleaning and rejuvenation of the retro-reflectivity of thermoplastic and cold plastic markings.
- ▶ Simultaneous vacuum recovery allows for application of new markings in 20 minutes.
- ▶ SK3000 is mounted on a 21' (6.4 m) skid-like platform.

Advantages of the Stripe Hog SK3000 for the Airport Industry:

- ▶ Rubber removal rates up to 15,000 sq. ft. (1393 m²/hr) on asphalt and concrete runways.
- ▶ Rapid cleaning and rejuvenation of runway centerline marking retro-reflectivity reduces dramatically the frequency of center line painting.
- ▶ Runway retexturing in extreme hot climates where friction is lost because of asphalt bleeding.
- ▶ Runway retexturing in climates with heavy snow and ice where snow removal brooms polish the surface of the runway.
- ▶ Simultaneous vacuum recovery allows for immediate emergency landings during the removal process.

OPTIONS

Combo Water / Vacuum Trailer ST1000

Interior bladder separates clean water from recovered water and debris.

Hog Rider HT2500

Unmatched maneuverability

Ground Hog HT1000

Lightweight for low cost

Available Blasting Widths

From 6" - 36" (15.2 cm - 91.4 cm)
